

# Our Savings Approach

## Typical Telecom Costs

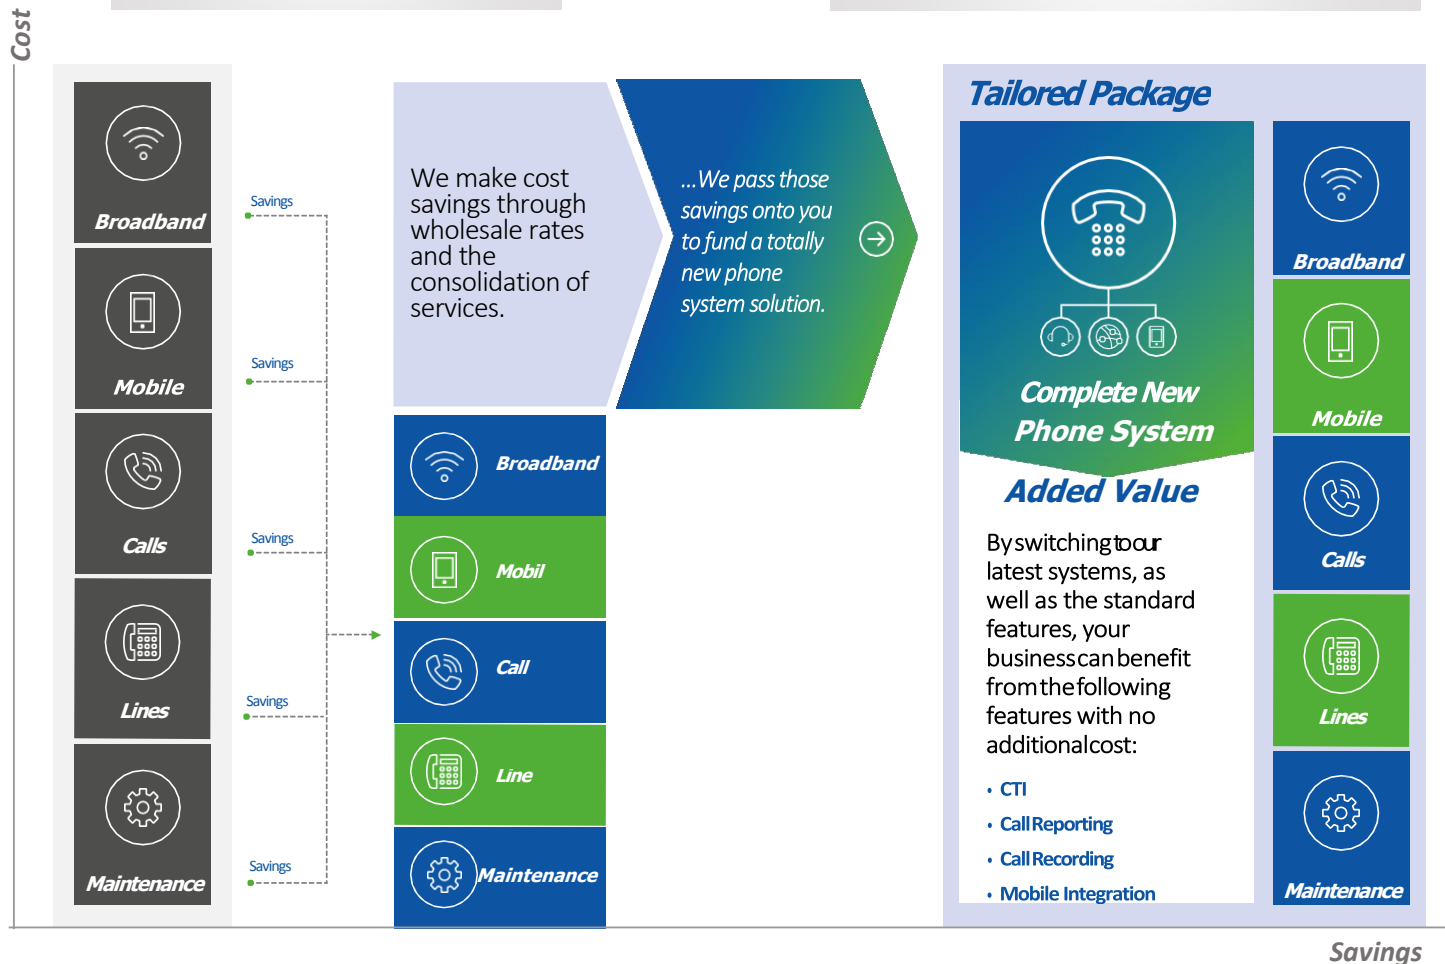

Your business telecom budget will cost more if you are using multiple suppliers or failing to use a fully independent provider.

## New Network Telecom Costs

Using the savings, we make by consolidating your existing services, we can supply a brand new "feature rich" phone system, often for little or no extra cost.

## ROI Savings by Percentage

- Cut service provider by an average of 25% after new upgrades are implemented.
- Reduce telephony maintenance contracts by an average of 50%
- Reduce data infrastructure maintenance by an average of 25%.

## Free Telecom's Spend Analysis. Get in Touch

Talk to us today to find out how much your potential savings could be. Don't feel like calling up? Simply email us a copy of your latest bills for analysis. We'll perform a free analysis and let you know how much you could save or how you could be getting more from your current spend.
